

BME Faculty Research Seminar

Date: Thursday, March 18, 2010

Time: 1:00-3:00PM

Primary Location: UTEB 150 @ Storrs Campus

Video Conferencing: L5095 @ UConn Health Center

U C O N N

Dr. Bahram Javidi

3-D Imaging, Visualization, & Sensing
Department of Electrical & Computer Engineering

Dr. Leslie Loew

Neuronal Cell Biology
Center for Cell Analysis & Modeling

Dr. Marie Luby

Imaging of Neurological Disorders
Neurological Disorders & Stroke (NINDS) @ National Institute of Health (NIH)

Attend the second faculty research seminar hosted by the Biomedical Engineering (BME) Graduate Student Committee (GSC). Learn about cutting-edge interdisciplinary research occurring at the University of Connecticut and the University of Connecticut Health Center from the faculty members themselves in an intimate and interactive environment. Meet other research driven students from all subsets of biomedical engineering. **Refreshments will be served.**
