

BME Faculty Research Seminar

Tuesday, December 1, 2009

3:00-4:30PM

Engineering 2 Building – Room 202 [E2-202]

Storrs, CT

U C O N N

Dr. George Lykotrafitis

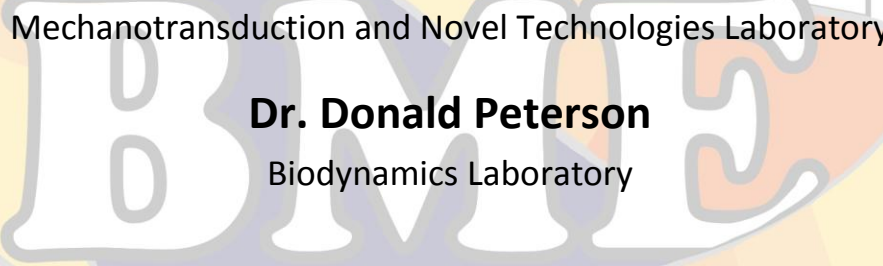

Cellular Mechanics Laboratory

Dr. Shiva Kotha

Mechanotransduction and Novel Technologies Laboratory

Dr. Donald Peterson

Biodynamics Laboratory

Attend the first BME Faculty Research Seminar hosted by the Biomedical Engineering (BME) Graduate Student Committee (GSC). Learn about cutting-edge interdisciplinary research occurring at the University of Connecticut from the faculty members themselves in an intimate and interactive environment. Meet other research driven students from all subsets of biomedical engineering.
